I.K. International Publishing House Pvt. Ltd., 2012. Paperback. Book Condition: New. 18cm x 24cm. Industrial Management is a newly introduced subject in engineering education though it has been in the management stream since long. The book deals with the concepts, applications and principles of industrial management exhaustively. The objective is to impart knowledge of Industrial Management for Engineering and Management students and to impart purposeful and thoughtful principles related with the area. This goal can be realized by the use of Productivity Concept, Inventory Management, Quality Control Concept and Function of Management. Environmental cleanliness is also one of the important functions to achieve the desired goal. All these and various other related areas have been dealt with exhaustively in the present book to make it self-sufficient for this particular area of study.
