

Problem-Solving Strategies

By Arthur Engel

Springer-Verlag New York Inc., United States, 2001. Paperback. Book Condition: New. 1st ed. 1998. Corr. 2nd printing 1999. 231 x 155 mm. Language: English . Brand New Book. A unique collection of competition problems from over twenty major national and international mathematical competitions for high school students. Written for trainers and participants of contests of all levels up to the highest level, this will appeal to high school teachers conducting a mathematics club who need a range of simple to complex problems and to those instructors wishing to pose a problem of the week , thus bringing a creative atmosphere into the classrooms. Equally, this is a must-have for individuals interested in solving difficult and challenging problems. Each chapter starts with typical examples illustrating the central concepts and is followed by a number of carefully selected problems and their solutions. Most of the solutions are complete, but some merely point to the road leading to the final solution. In addition to being a valuable resource of mathematical problems and solution strategies, this is the most complete training book on the market.

Reviews

It is one of the most popular publication. It really is written in easy words and not difficult to understand. You are going to like how the author writes this book.

-- **Prof. Evans Balistreri DDS**

Completely essential go through book. This is for all who state there had not been a worthy of reading through. It is extremely difficult to leave it before concluding, once you begin to read the book.
