

Illuminating Engineering Practice; Lectures on Illuminating Engineering Delivered at the University of Pennsylvania, Philadelphia, September 20 to 28, 1916

Filesize: 5.05 MB

Reviews

This pdf might be well worth a study, and a lot better than other. It really is simplistic but excitement inside the fifty percent in the book. Its been printed in an exceedingly straightforward way which is just after i finished reading this ebook through which really modified me, modify the way i believe.

Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1917 Excerpt: .of color in aiding and pleasing mankind. This aspect of lighting is endless in extent and its ramifications are numberless. No strict classification will be adhered to but in general those having a more scientific basis for existence will be treated first while those involving chiefly aesthetic taste will be discussed later. Artificial North Skylight.--This quality of light is the most generally acceptable for accurate color work, such as in matching and in inspecting colors. There is no need to discuss it further than to record the classes of work for which it is being used at present. It is not used for lighting large areas in the sense of general lighting although there are some rather extensive installations in existence. Artificial north skylight is at present used in the following places and occupations and perhaps in others: department stores, color printing, textile mills, dye houses, laboratories, cigar factories and stores, haberdasheries, chiropody, hair dressing, sugar testing, dentistry, painting, paint and wall paper stores, millinery shops, button factories, diamond and jewelry shops, medical examinations, surgical operations, microscopy, chemical analysis, flour mills, paper mills, garment factories, cotton mills. Artificial Noon Sunlight.--This quality of light is at present quite extensively used for general lighting in many cases where the requirements are not as refined as in the previous cases, and where eyes untrained in refined color-discrimination are involved. Among the places and occupations in which this quality of daylight is at present being used are the following; lithographing,...
