RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 214 pages. Original publisher: Research Triangle Park, N. C. : Information Transfer and Program Integration Division, Program Implementation and Review Group, Office of Air Quality Planning and Standards, U. S. Environmental Protection Agency, 2000. OCLC Number: (OCoLC)47833407 Subject: Air -- Pollution -- United States. Excerpt: . . . isnt part of a process unit group Definition. Process unit group means a group of process units that manufacture PAIs and products other than PAIs by alternating raw materials or operating conditions, or by reconfiguring process equipment. Only process equipment that has been or could be part of a PAI process unit, because of its function or capacity, is included in a process unit group. has the potential to emit 10 tons yr of any one HAP or 25 tons yr of combined HAP construction started on the unit after November 10, 1997 Four examples of changes to a facility and the type of standards that would apply are as follows: If you add a single PAI process unit at an existing major source and the potential to emit for that process unit (with or without enforceable limits)...
