CLIMATE AND VEGETATION OF THE SOUTHERN COAST OF THE CRIMEA. Geographical position--Summer--Spring--Autumn--Winter--Peculiarities in the vegetation--Foreign and indigenous plants. In considering the climate of the Crimea, we observe many peculiarities which have not hitherto received sufficient explanation. The southern coast lies between the 44th and 45th degrees of north latitude, about the same distance from the equator as northern Italy, e. g. Genoa and Venice. The Crimea is likewise a peninsula, with a maritime climate; and although the northern plains are exposed to the keen winds of eastern Europe, the southern coast is completely protected by a range of mountains 4000 feet high. There is a prevalence of west winds, but otherwise the wind blows from the south. From these circumstances we might expect to find a mild climate, equivalent to that of the north of Italy. The climate, however, is generally severe, and...
